

DECKMATE LADDER

The World's #1 Ladder in the Transportation Industry

Access Your Load The Right Way!

"PROFESSIONAL DRIVERS NEED PROFESSIONAL TOOLS"

As the saying goes, necessity is the mother of invention, there is a real need for a strong, light weight portable ladder. The Deckmate Ladder is just that...the Deckmate Ladder was developed to help professional drivers get on or off trailers and vans. To help cut down on injuries to knees and spinal column and those troublesome compensation payments.

The Deckmate Ladder is the only lightweight portable folding ladder, made of steel that hangs at a convenient working angle and hooks onto the rub rails of flatbed trailers. For vans there is a bolt on bracket (sold separately). This bracket does not interfere with the loading docks.

- For vans & refers. Has anti skid engineered steps
- Powder coated Reflective markers
- Weighs only 20 lbs, Extends to 53 inches and folds to 33 inches
- 400 pound capacity 18 inches wide
- Non-pinch hinge Comes with a support bar with storage pocket

Safety isn't just a consideration, it's a Primary Consideration.

- Deckmate folding portable ladder is designed to allow safer access to truck trailers, both vans & flatbeds
- Prevent falls from jumping off trailers or vans; climbing up greasy dirty muddy tires or slips from climbing up on bumpers from trailers
- No more step ladders blowing over in the wind
- Hooks safely on to the rub rail or has a bolt on bracket (sold separately)
- Reflective markers
- Reduce company worker injury claims, from knee, spine & hip injuries
- Easy storing
- The unique hinge design prevents pinching fingers & clothes
- The Deckmate Ladder has been approved by the U.S. Department of Labor MSHA's accident prevention program and is sold all over Canada and the U.S.

The Deckmate Ladder has been on the market since 2002 and is a family run business. The ladders are made and manufactured in Ontario Canada
